

Management Systems & Auditing

We offer comprehensive services all around management systems and auditing. We can give you support from verifying via implementation to certifying.

Besides the classical quality- or environmental management, we also deal with business-specific or special standards like **cosmetics, medical devices** and so on.

We would like to assist you with qualifications in the field of TQM, environmental management and as a highly-experienced GMP-auditor – whether for supplier audits, for internal audits from the point of an “outsider” or for other issues of that field.

Portfolio „Management Systems“ (Examples)

- Implementation of management systems or aspects of MS tailored to your plant
- Assistance in / preparation for certifications, customer audits, site inspections
- Creation of specific manuals and documents - tailored to your plant!
- External management representative – professional interim management

Portfolio „Auditing“ (Examples)

- Assistance in internal audits (independently and without "being blinded by routine")
- Supplier audits and qualification
- Special audits (like process-, procedure-, system-, combined audits)

Training

We support you in the fields of advanced training and qualification of your staff!

You can either employ our own training courses and seminars offered by us, or you can find our offers with partners. Beyond this, we are always represented at different events; so appropriate topics can be presented by us if applicable.

For general schooling topics, for special aspects and especially for training courses tailored to the needs and requirements of your plant, we also offer **"in-house"-training and "in-house"-seminars!**

Portfolio „Training“ (Examples)

- GMP, cosmetic GMP: general demands, standards, legal regulations, hygiene, staff training
- Quality management: ISO 9001, requirements of the standard, QM-tools
- Environmental management: ISO 14001, aspects of the standard, general environmental aspects
- Auditor training, training courses for becoming an "Internal Auditor"
- Integrated management systems
- Aspects of safety, dangerous substances, hazardous materials / goods
- Instructions of staff
- Management methods, moderation, presentation, communication

Consulting

We would like to consult you – according to your needs, to your wishes and with our experience!

Our competence is based on qualifications, long-time experience in different industrial sectors, versatile knowledge and skills. Our focus is set in the fields of **quality management, environmental issues, cosmetics / cosmetic GMP, medical devices, aerosols and filling.**

By means of cooperation with certifying- and other organizations and by manifold contacts, we can certainly support you in further subjects!

Portfolio „Consulting“ (Examples)

- Management systems, integrated management systems, individual aspects of management systems
- GMP, cosmetic GMP, hygiene: implementation of GMPs at the company, consulting on new construction (locations, production and filling areas, QA, ...)
- Environment, waste
- Occupational health and safety
- Regulatory and legal issues (e.g. environment, safety, product, transport / dangerous goods)
- Creation of operating instructions
- Project management
- Production- and process analyses
- Supervision and analysis of initial productions (initial samples), validations
